FOOT AND ANKLE TRAINING  
PROGRAM

# Program

## Step2Education

Novastep, the specialist in the design of innovative foot and ankle surgery solutions, can support you in your continuing professional training.

The goal of our **Step2Education** program is to work with you to acquire complementary techniques, fine-tune your procedures, and grow your knowledges.

---

### MEETINGS WITH EXPERT SURGEONS

You'll meet with 1 or 2 expert surgeons to review several predefined topics.

**Participant profile:** Orthopedic surgeon.

**Trainer:** 1 or 2 expert F&A surgeons from the Novastep network.

**Description:** Designed to meet your needs. Typical program involves 1 to 2 days spent between the operating room, in consultations and discussions.

---

### WORKSHOPS

Learn new procedures on a Sawbones foot or anatomical pieces under the attentive guidance of our expert surgeons.

**Participant profile:** Orthopedic surgeon.

**Trainer:** 1 to 3 expert F&A surgeons from the Novastep network.

**Description:** Customized thematic workshops: ½ day or full day in groups of 5 to 10 persons.
